

Safety Data Sheet

For Products: Eartec UltraLITE HD, Eartec UltraLITE PRO16, Eartec EVADE

1. General Information

Manufacturer: Eartec Company

Website: <https://www.eartec.com>

Importer (DE): PAT GmbH, Zum Wartturm 15, 63571 Gelnhausen

Contact: +49 6051 91400, compliance@proaudio-technik.de

2. Important Safety Information

This safety data sheet contains essential information for the safe use of the above-mentioned products. Please read it carefully before using the product.

3. Electrical Safety

Avoid using damaged cables or connectors, as they may lead to short circuits or overheating.

Use only the chargers recommended by the manufacturer to prevent short circuits or overcharging.

Do not operate devices in humid environments to minimize the risk of internal short circuits.

4. Risks Associated with Lithium-Ion Batteries

Important Usage Guidelines: Do not physically damage, overheat, or improperly store the batteries.

Store batteries in a cool, dry place, away from direct sunlight or heat sources.

Dispose of batteries in accordance with local regulations. Never dispose of batteries in household waste.

Possible Risks: Overheating or fire hazards due to damage or misuse.

Chemical leakage in case of mechanical damage to the battery.

Avoid direct skin contact with leaking substances. Rinse affected areas with water and consult a doctor if irritation occurs.

5. Acoustic Safety

Avoid setting the volume too high for extended periods to prevent hearing damage.

Use the device's volume controls, if available.

Protect your hearing from sudden volume spikes by manually controlling the volume.

6. Thermal Risks

Do not use the device if it becomes unusually hot.

Charge the device only in cool, well-ventilated areas.

Ensure the device is placed on a solid, non-flammable surface during charging.

7. Mechanical Safety

Avoid using devices with damaged or broken parts, as sharp edges may cause injuries.

Secure cables to prevent tripping hazards.

8. Data and IT Security

Avoid pairing with unknown devices to prevent unauthorized access to conversations.

9. Environmental Protection and Disposal

Do not dispose of old devices or batteries in household waste.

Take them to an authorized recycling center.

Follow local regulations for the disposal of electronic devices and batteries.

10. Emergency Information

In Case of Battery Leakage: Avoid skin contact. Rinse affected areas with water and seek medical advice if necessary. In Case of Fire: Do not extinguish lithium-ion battery fires with water. Use suitable extinguishing agents, such as ABC powder or sand.

11. Compliance

The above-mentioned products comply with applicable EU directives and safety standards. Further information can be found on our website or in the user manual.
