START-UP

1)   Begin with all Eartec equipment "OFF".

2)   Connect interface unit to any Talkback location via RJ45 connector.

3)   Power interface module with 12V AC Adapter (included).

4)   Connect interface unit to the Cmod or HUB via 2-pin connector.

5)   Turn the Cmod or HUB "ON", then install batteries into the Headsets.

6)   Adjust volume levels as needed.

ADJUST SIGNAL LEVELS

Rotate Dials

Volume is increased and decreased via dials on the interface. Adjustments are made in digital "steps". Rotate to change volume levels.
